Rosenberg

Travel to Rosenberg, Texas, and you'll have fascinating history, metropolitan fun, and outdoor adventure right at your fingertips. This enchanting community, with its beautifully restored downtown district and abundance of unique shops and distinctive eateries, is just 30 miles southwest of the bustling city of Houston. Rosenberg's ideal location, alluring small-town charm, and variety of things to see and do make it a wonderful weekend getaway from one of the largest cities in the country.

Rosenberg resides within Fort Bend County, a true hotbed of Texas history. It saw some of the earliest settlement in Texas because it was part of the land granted to Stephen F. Austin for colonization by the

Mexican government in the early 19th century. The fertility of the soil, and the presence of the Brazos River, made it an attractive destination for American and European immigrants who came to farm the land. Yet Rosenberg didn't develop into the urban area it is today until the railroad arrived in the 1880's. In fact, the railroad had such an impact on the town's history that it was eventually named after Henry von Rosenberg, a Swiss immigrant who was the first president of the Gulf, Colorado & Santa Fe Railroad. Throughout its early years, some of Texas' most famous pioneers and citizens' hung their hats in Fort Bend County.

Jane Long, known as the "Mother of Texas," owned land in the area, as did Mirabeau B. Lamar, the second President of the Republic of Texas. Long and Lamar are two of the area's earliest residents interred at the Morton Cemetery in Richmond, just one of the many historic sites in Fort Bend County. Immerse yourself in the county's history by visiting the [George Ranch Historical Park](#), [Fort Bend Museum](#), and [Rosenberg Railroad Museum](#), three of the area's top attractions. The Fort Bend County Museum, with its stately Roman columns and eye-catching bronze dome, is worth a visit.

For a bit of retail therapy, you won't find anywhere else better than the [Rosenberg Historic Downtown District](#). Narrow two-lane roads flanked by restored Western-style buildings that house all manner of shops just waiting to be explored. Browse the one-of-a-kind antique and book stores before searching for a fashionable ensemble at one of the boutique shops in the area. Handmade furniture, fine jewelry, a wide range of restaurants, and even spa services if you need a bit of TLC can be found in the district too. Don't miss a show by the [CAST Theatrical Company](#), a local performing arts group housed in one of the most intimate theaters in Texas, a 62-seat venue perched above an antique store.

Not only is Rosenberg a fine place to visit for its urban attractions, but it also has plenty to offer those looking to enjoy nature. The town is about 20 miles from [Brazos Bend State Park](#), where you might just run into one of the many alligators that call the park home. Along with the occasional close encounter of the reptilian kind, the park has hiking and biking trails and six fishing lakes. [The George Observatory](#), home to one of the largest publicly accessible telescopes in the country, resides within the park as well.

Rosenberg's captivating history, gorgeous historic district, and wealth of things to see and do make it a great choice for your next Texas vacation.
