## Outdoor Rustic Coolers

We have assembled some of the most unique outdoor and indoor coolers available today. Each one of our rustic coolers and furniture is hand made out of real “barn wood” so no two finished goods are alike. All of these rustic items are hand-crafted in Texas. In most cases you may customize your adornments so if you wish to have yours decorated a little differently than the way they are shown, please let us know!

Our rustic coolers include official Igloo brand ice chests for liners. These liners hold the cold much better than metal ones, many of which don’t even have any insulation in them! Also-Igloo coolers are easier to clean and are more sanitary, especially when storing ice made for drinks. All of our coolers include drain plugs as well.

**Outdoor Rustic Coolers**

Be sure to check out the Super Duper cooler! We know it’s kind of corny but all of our staff were involved in its design and based on the interest and sales, we must have a great product!

Our site also includes some other related cool items. All of these goods may be used indoors as well as outside and really dress up any patio, deck or game room.
