Frontier Texas Hours & Ticket Prices

Ten dollars. Ten measly dollars is all it costs an adult to experience nine immersive exhibits, eleven holographic spirit guides, and a 360-degree movie theater. You get all that for the price of a popcorn and soda at your local movie theater.

All you have to do is make your way to downtown Abilene, which Frontier Texas also happens to be the official visitor center for. Whether you're spending the night in town or just driving through, there's more than one good reason—at least nine—to spend an hour or two at Frontier Texas.
