La Nube STEAM Discovery Center Hours and Ticket Prices

Move over, cloud nine. There's a new cloud in town, and it's the La Nube STEAM Discovery Center in El Paso. This learning center blurs the line between museum and indoor amusement park. It features nine wholly unique zones based around science, technology, engineering, art, or mathematics.

Famed British physicist, David Deutsch, coined the term "fun criterion." The idea of the fun criterion is that problem solving, creativity, innovation, and education are all at their highest levels when one is having fun. That's exactly the philosophy behind La Nube. Did we mention they have one of the tallest indoor climbers in the state of Texas?
